This demo includes both user and admin views

Project Summary

Ranzi's Mediterranean Cuisine is a catering website that allows users to browse and order dishes from a diverse menu of Mediterranean cuisine. The website features a home page, a menu page, a picture gallery, and an order page.

- The menu page lists all of the available dishes, along with their prices and a button that allows users to add items to their order. The picture gallery showcases the delicious dishes available on the menu, giving users a visual idea of what they can expect.
- The order page allows users to review and edit their order, including updating the quantities of items or removing items entirely. It also includes a form where users can enter their contact and delivery information, which will be displayed on the order confirmation page.
- The order confirmation page displays all of the user's information, including their contact details, address, and the date of the order. It also includes an itemized list of the items that have been ordered, along with their quantities and prices, as well as the total cost of the order. It also allows users to print a print friendly version of this page.

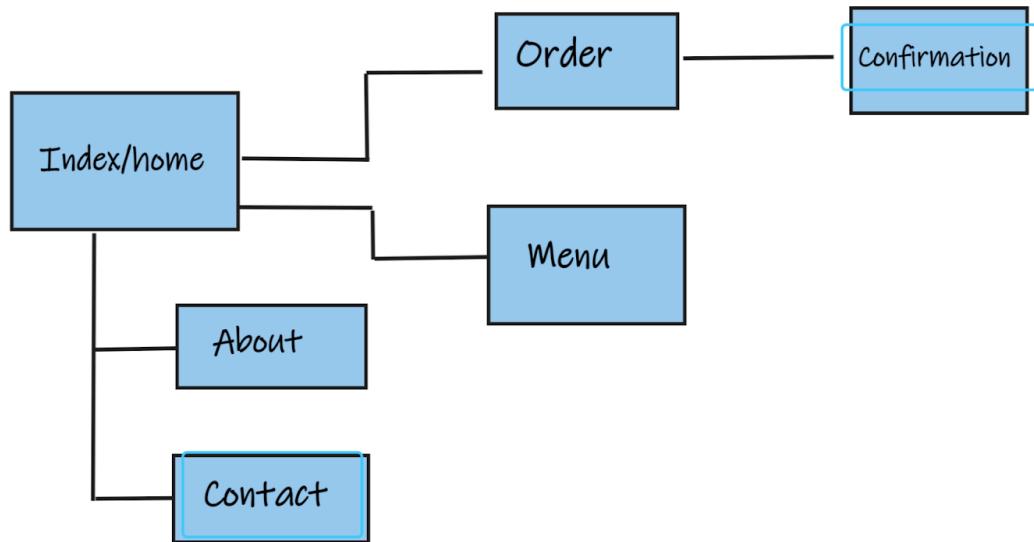

In addition to the user-facing pages, the website also includes an admin page for managing the menu and orders. Administrators can edit existing menu items by clicking the pencil icon next to the item and making changes in the fields provided. They can then submit their changes by clicking the solid green pencil button.

To add a new item to the menu, administrators can scroll down to the bottom of the page and enter the necessary information in the provided fields. They can then add the item to the menu by clicking the plus icon.

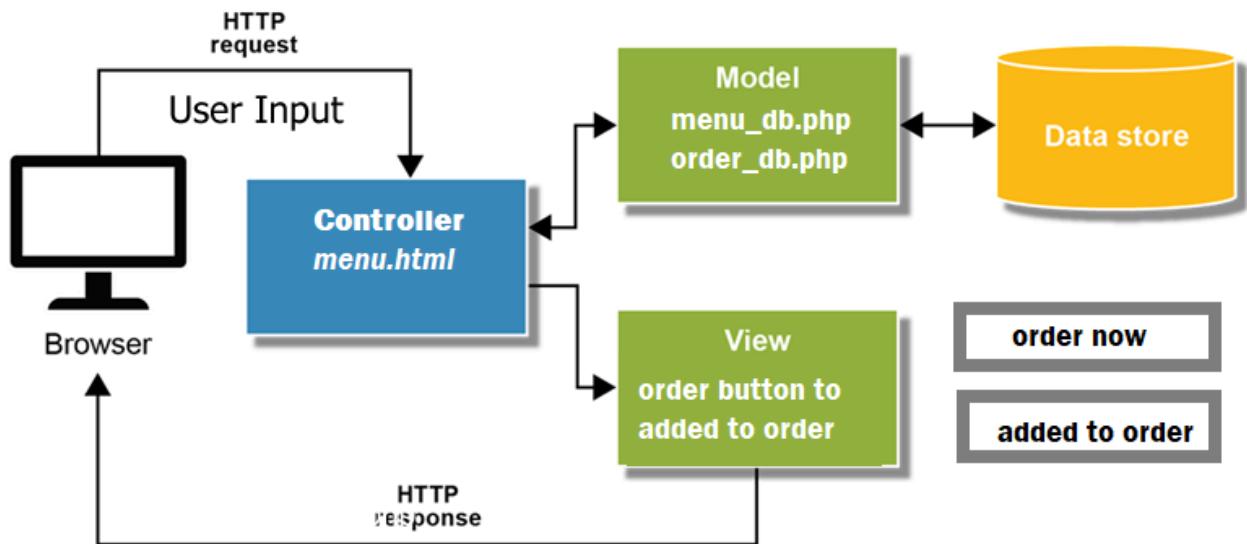

The admin page also allows administrators to view and manage orders, updating information as needed. This helps to ensure that orders are processed smoothly and efficiently, and that customers receive their dishes in a timely manner.

UI/UX Wireframes

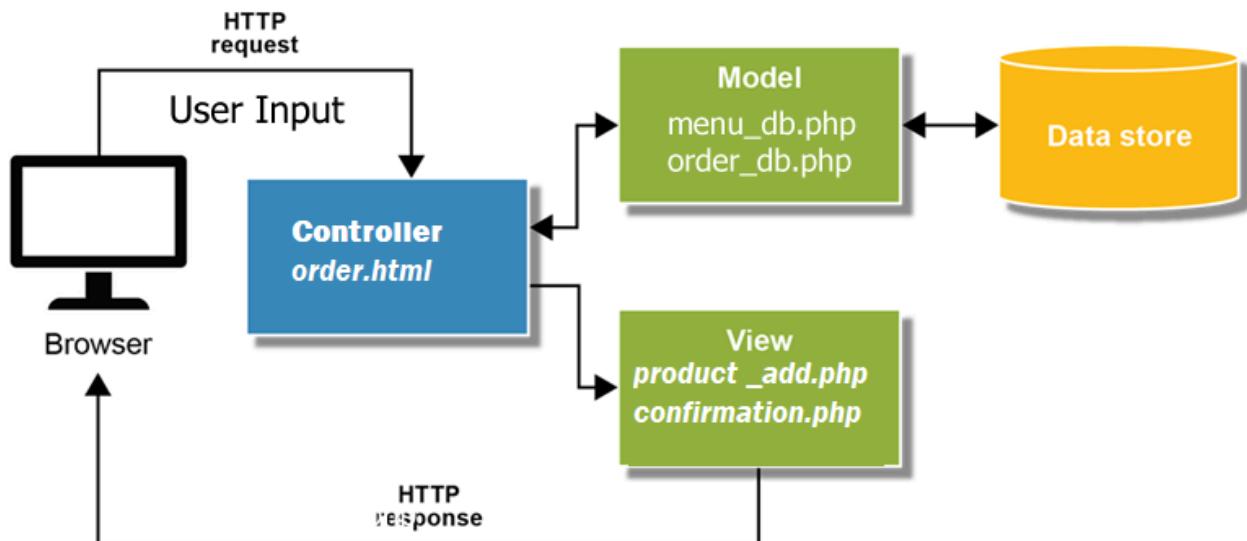

SITE MAP

MENU PAGE MVC

ORDER PAGE MVC

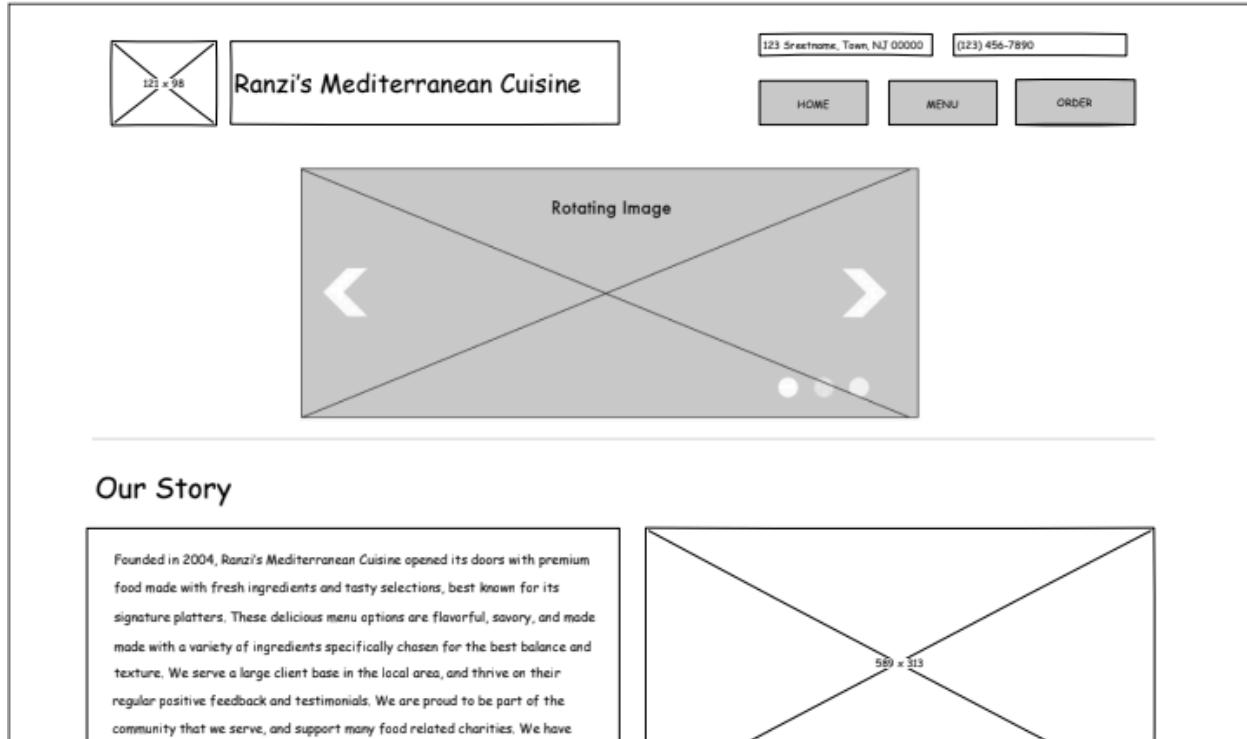

1. Views - tools used:

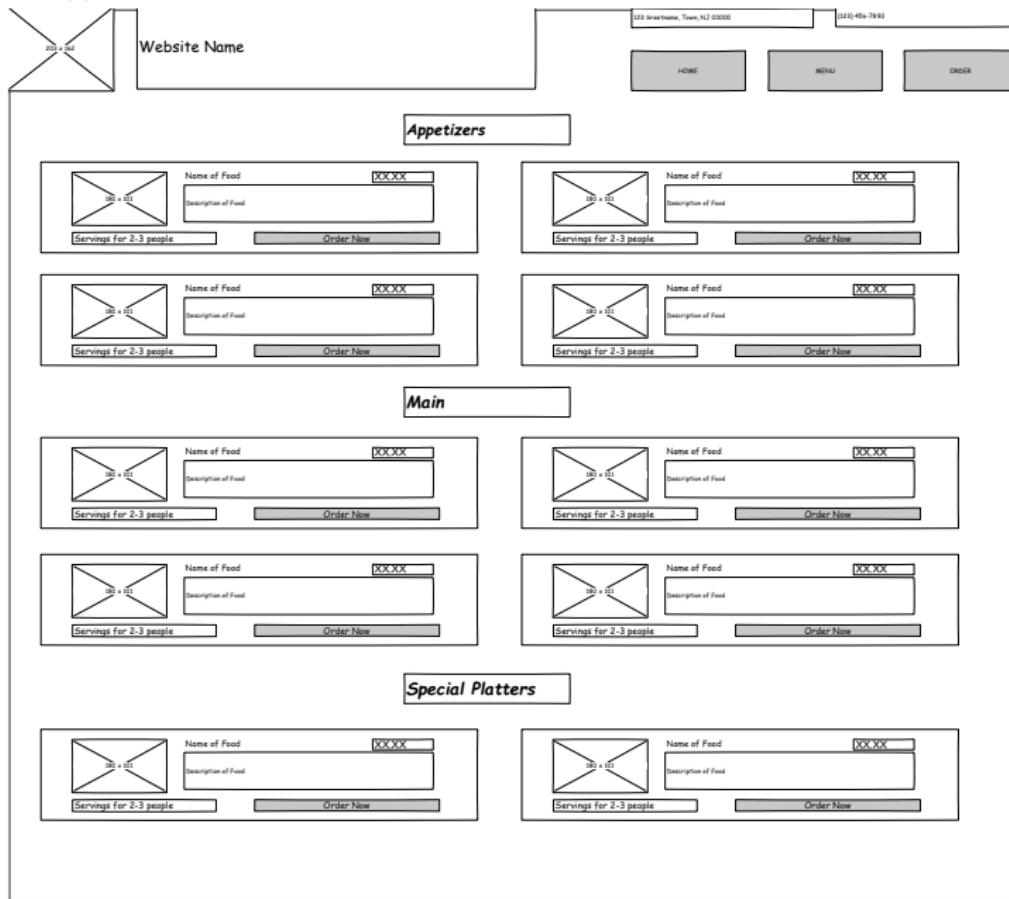

- a.** Homepage - HTML, CSS, Bootstrap
 - i. Contact section
 - ii. About section
- b.** Menu - HTML, CSS, Bootstrap, PHP, MySQL, phpMyAdmin
 - i. 8-10 menu items with descriptions and thumbnail photos
 - ii. Menu items can be modified from admin view
- c.** Order Page - HTML, CSS, Bootstrap, PHP, MySQL, phpMyAdmin
 - i. Displays selected menu items and allows chance to make modifications to order
 - ii. Displays total of order
- d.** Order confirmation page - HTML, CSS, Bootstrap, PHP, MySQL, phpMyAdmin
 - i. Returns the order information and total
 - ii. User friendly print css style
 - iii. Confirmed information is added to SQL dataset for customers
- e.** Admin Menu page - HTML, CSS, Bootstrap, PHP, MySQL, phpMyAdmin
 - i. Gives admin ability to edit the menu items and add items to the menu
 - ii. Updates the menu table in the database

2. Wireframes

Home Page:

Menu:

Order/Cart:

The screenshot shows a web-based order cart interface. At the top, there's a header with a logo, a "Website Name" input field, and navigation links for "HOME", "MENU", and "ORDER". Below the header, the main content area is divided into two sections: "Your Order" on the left and "Delivery Info" on the right.

Your Order section:

- Four food items listed, each with a small placeholder image, name, price (\$XX.XX), quantity (#), and a "+ Add" button.
- "Remove" button next to each item entry.

Delivery Info section:

- Form fields for First Name, Last Name, Email, Phone Number, Date, Address Line 1, Address Line 2, State (dropdown), Zip, and a "Confirm" button.

Total: \$xx.xx

Order Confirmation:

The screenshot shows an order confirmation page. At the top, there's a header with a logo, a "Website Name" input field, and a "Print" link.

Order Recieved!

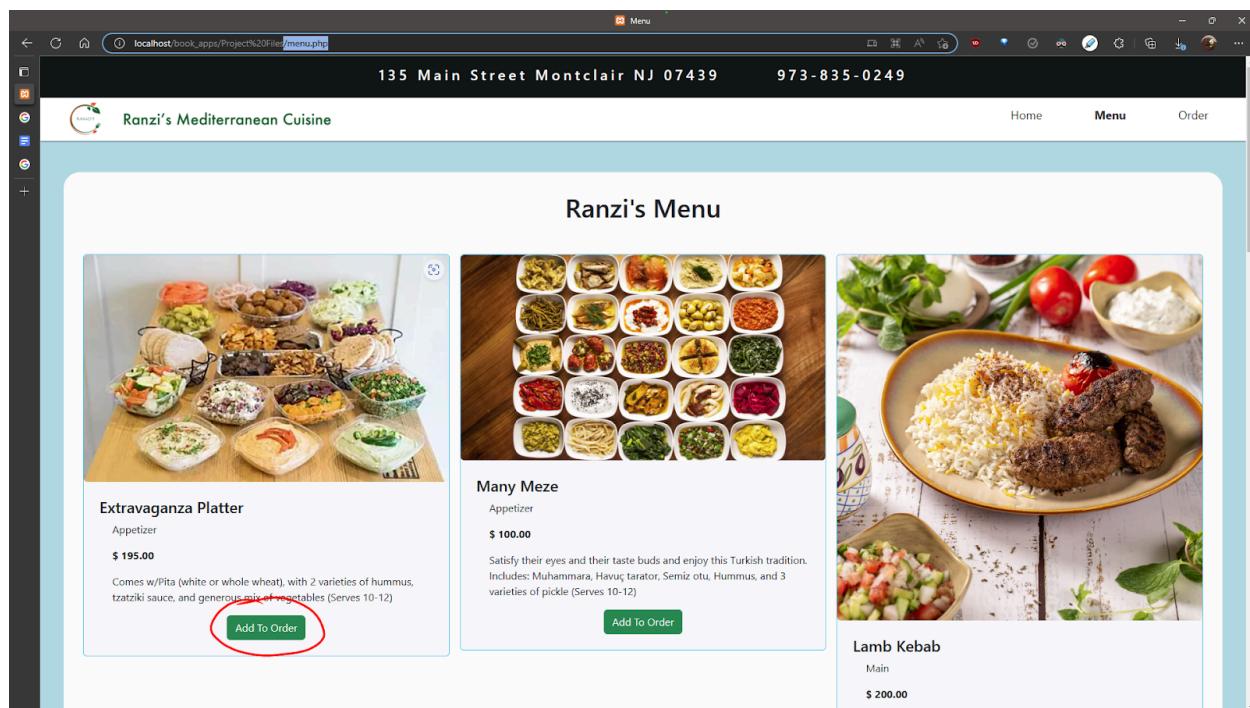

A copy of your order has been sent to your Email. You may print this page for your records [Print](#)

Order Summary

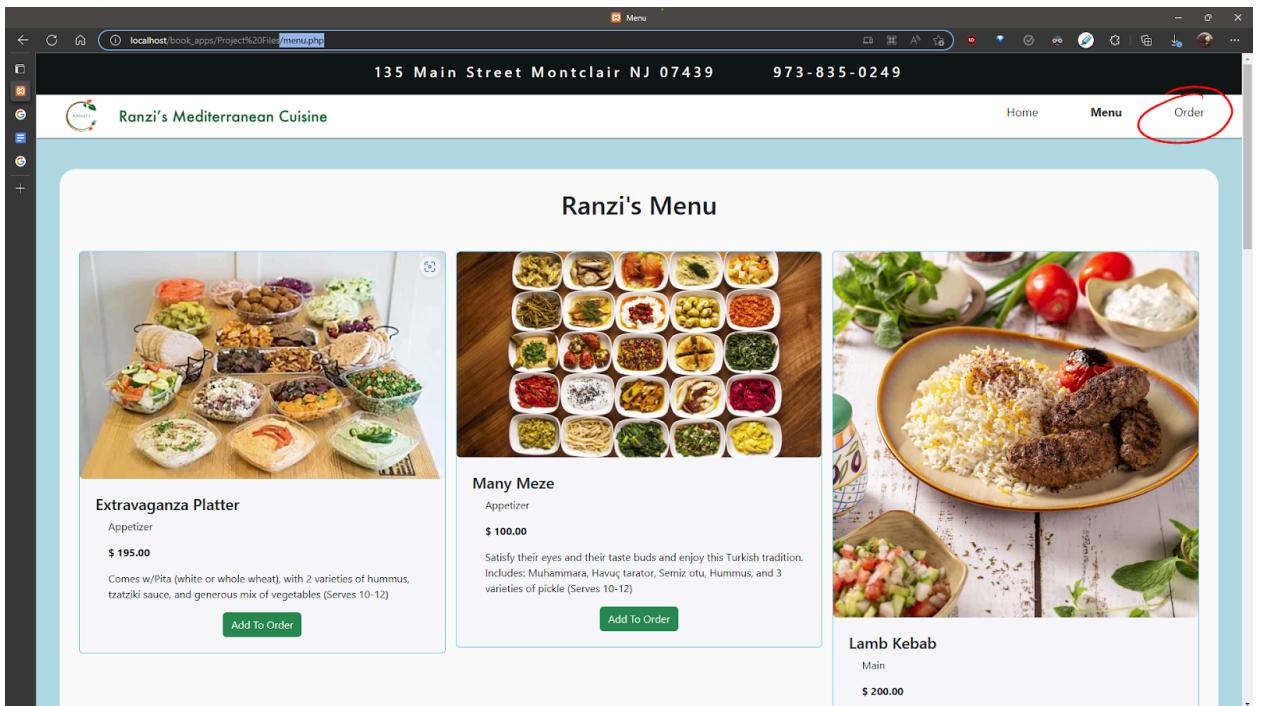

ITEM NAME	QUANTITY	PRICE
Food Name 1	##	\$ XX.XX
Food Name 2	##	\$ xx.xx
Food Name 3	##	\$ xx.xx
Delivery Fee	-	\$ XXXXX
		TOTAL: \$XXXXXX

User Manual

1. To order an item, browse the menu (/menu.php)
2. Click the green “Add To Order” button to add the item to your cart.

3. Click the Order page on the navigation bar

For User: How to Increase Quantity and Total

1. After clicking the green “Add To Order” button to add the item to your cart, you can increase the quantity by simply clicking on the up arrow or manually typing in an amount
2. User may also remove an item which will automatically update the Subtotal for the item
